MACcopy®
MACjet®

Endless Options for Laser and Ink Jet Printing

Mactac® offers an expanding breadth of high-quality, high-performance products for laser and ink jet printing. MACcopy® for laser and MACjet® for ink jet offer excellent layflat performance in a variety of facestock options, high-gloss laser, matte clear laser, white PET laser, removable laser, high-gloss ink jet and matte coated ink jet.

From adhesive to facestock to liner, our products address the needs of your growing market.

- Our patented non-ooze MP910 adhesives leave sheet edges dry and clean and eliminate the need for time-consuming matrix stripping and excess matrix disposal, enabling you to run your press at higher speeds.
- Mactac offers one of the broadest ranges of facestock options with exceptional brightness and whiteness as well as superior toner anchorage, allowing you to meet all your application needs.
- Through pre-screened facestocks and liners as well as extensive testing, Mactac ensures guaranteed layflat performance time and time again.

MACcopy® MACjet®

Toner Fusion / Ink Jet Paper Stocks - 6” Cores are standard on all products below						
Product	**Adhesive**	**Liner Caliper (mils)**	**Product Number**	**Width**	**Ink Jet**	**Laser**
MACjet® A versatile 50# stock, designed for ink jet printing as well as toner fusion. It may also be flexo or offset printed.	910 (NON-OOZE) Patent 5154974	2.5 LF	NI1844	78”	✓	✓
MACjet Glossy Ink Jet 60# premium bright white gloss stock for photo realistic image quality. Fast drying and good water-fast properties. Not recommended for laser printing.	910 (NON-OOZE) Patent 5154974	2.5 LF	JG1802	78”	✓	
MACjet Matte This premium 60# matte coated photo quality like stock really makes your ink jet colors pop. Also offers very good water fast qualities. Flexo ink testing recommended.	910 (NON-OOZE) Patent 5154974	2.5 LF	JM1802	78”	✓	
MACcopy® Standard A bright white 50# flexible facestock designed for use in most laser printers and copiers. Also used in continuous form and some ink jet applications.	910 (NON-OOZE) Patent 5154974	3.2 LF	LAS1812	78”	✓	✓
	LT20	3.2 LF	LAS0912 - Custom	78”	✓	✓
	HR51	3.2 LF	LAS5112	78”	✓	✓
	MR860	3.2 LF	LAS8612	78”	✓	✓
	MR840	3.2 LF	LAS8412 - Custom	78”	✓	✓
MACcopy Xtra This bright white dual purpose stock is designed for excellent black and color image quality processing in most ink jet, laser printers and photocopiers. Matrix removal recommended for ST95 and 640AT adhesives.	910 (NON-OOZE) Patent 5154974	3.2 LF	NX1812	78”	✓	✓
	ST-95	3.2 LF	NX9512	78”	✓	✓
	640AT	3.2 LF	NI2643	78”	✓	✓
MACcopy High-Gloss A high gloss paper stock designed for excellent image quality and processing in most high speed, mid-range, and continuous feed toner fusion printers.	910 (NON-OOZE) Patent 5154974	3.2 LF	LHG1812	78”		✓
MACcopy Semi-Gloss A semi gloss, coated litho construction for processing in most toner fusion printers and photocopiers where higher preprint flexographic quality and gloss is required. Suitable for internal matrix removal.	910 (NON-OOZE) Patent 5154974	3.2 LF	NS1812	68”		✓
	HR51	3.2 LF	NS5112	78”		✓
	MR860	3.2 LF	NS8612	78”		✓
MACcopy Matte A matte, coated litho construction designed for processing in most toner fusion printers and photocopiers where higher preprint flexographic quality is required.	ST-95	3.2 LF	AP9512LF	78”		✓
MACcopy Fluorescent A light weight fluorescent stock designed for excellent image quality and processing in desktop, toner fusion printers.	910 (NON-OOZE) Patent 5154974	2.5 LF	NJR1802Red/Oragne NJC1802 Chartreuse NJG1802 Green NJP1802 Pink NJO1802 Orange	78”		✓
MACcopy Uncoated Litho A 60# uncoated facesheet designed for use in high-speed laser printers.	910 (NON-OOZE) Patent 5154974	3.2 LF	NH1812	68”		✓
Toner Fusion Only Film Stocks - 6” Cores are standard on all products below.						
MACcopy Clear PET 2 mil laser printable matte clear polyester. Designed for excellent image quality and durability in demanding applications. Must die cut.	910 (NON-OOZE) Patent 5154974	3.2 LF	LMC1810	52”		✓
MACcopy White PET 2 mil laser printable satin white polyester. Designed for excellent image quality and durability in demanding applications. Must die cut.	910 (NON-OOZE) Patent 5154974	3.2 LF	LWP1810	52”		✓
