

Bloom hi•mpact®

Thinner Liner

Roll Label

PSA-coated papers and films in roll-to-roll form. Extensive product options, available customization, varying roll lengths and widths, and customer friendly services, like our Mactac PreciseSM Program, which offers a precise amount of material needed for small runs and limited applications.

Profitability

Sustainability

Performance

An ultra-thin, highly refined 1.6-mil glassine liner available on a variety of roll label products.

With Bloom hi•mpact® , less is more.

Bloom hi•mpact®

- **Performance** – Bloom hi•mpact® 1.6 mil glassine liner is a highly refined, densified liner, leading to superior converting and die cutting on your press. You can also get 10% more material on the same OD roll.
- **Sustainability** – 10% more material helps the environment with 30% less liner waste, less packaging, and reducing freight emissions with fewer shipments.
- **Profitability** – This combination of performance and sustainability gives you more labels per roll. Saving you money with less change over, less downtime, and great efficiency. As well as savings on cost for freight and packaging.
- **Want to know more?** Reach out to us today about how much you can save with Bloom hi•mpact!
