

DesignScape3D™ Download and Installation for Windows

To download DesignScape3D for Windows, please paste <http://designscape3d.mactac.com/apps/ds3win.php> into your browser address bar. Click on the link to download the app. Download the DesignScape3D zip file to your desktop.

Right click and choose 'open with', then choose Windows Explorer. Click on 'Designscapelntaller' and let the file install to your desktop. Do not use the unzip or extract function because it will not allow DesignScape3D to install properly.

Click on the red and black circle icon to open DesignScape3D. Enter the user name and password you chose at registration. To proceed, accept the terms and conditions.

You will see a status bar in the lower right corner of the window. When it disappears, all the content will have downloaded and DesignScape3D is ready for you to use.

Installation tips:

1. If you can't find the file, check My Computer/Downloads. If not it's there, reinstall, making sure to specify 'Save to Desktop'.
2. If you can't sign into DesignScape3D or forgot user name or password, please contact designscape3d@mactac.com.
