IMAGin<sup>®</sup> Verde<sup>™</sup> Digital Print Media

**Greener alternatives to vinyl: wide-format media for indoor and outdoor signage and graphics, including POP displays, window graphics and more.**

More sustainable materials for your indoor and outdoor applications

## IMAGin Verde Media

**IMAGin Verde Media** is a line of 100 percent chlorine- and phthalate-free films designed for wide-format digital printing. IMAGin Verde Media is intended for use in a variety of applications on flat or slightly curved surfaces including indoor and outdoor signage, point-of-purchase (POP) displays, product identification labels, bumper stickers, short-term OEM decals and window graphics.

**IMAGin Verde VM3209R** is a 2.0 mil optically-clear; scratch resistant polyester film, topcoated for wide-format UV printing. With an optically-clear removable adhesive, VM3209R is ideal for removable point-of-purchase signage for windows as well as no-label look decals.

Product	Gauge	Adhesive	Liner	Min App Temperature	Outdoor Durability	Wide-format Print Method
<b>VM3209R</b> Media	2.0 mil Gloss Clear Scratch-resistant, Topcoated Polyester	Optically-clear Removable Acrylic	1.4 mil Clear Polyester	40°F (5°C)	Up to two years	UV Cured

## Open-Image Warranty™ Peace of Mind. Guaranteed.

From products to service, expertise and training, Mactac® has you covered. And, we back your decisions with our Open-Image Warranty, which covers any combination of approved printer, ink and laminate or clear coat used with Mactac graphic media. Provide us with your selections and if we've already tested that specific combination, you're covered. If not, we will run a comprehensive series of tests to ensure the combination works, and then either warrant your application or provide an alternative recommendation.

We stand behind you. And, we work with the leading printer and ink suppliers to ensure product compatibility and durability.
