High-Performance Marking Films

6600 Series — *Just the Right Color*

With a kaleidoscope of colors, MACmark® 6600 Cast is the right choice for your most **demanding** cut vinyl applications. Choose an existing color or let our color experts create a specific shade.

- **6600 Series:** Premium high gloss cast film designed for long term applications up to ten years and over **complex curves** like rivets, corrugations and other irregular surfaces.

9000PRO Series — *Advanced Chemistry*

Today's polymeric calendared vinyls are engineered to provide superb **durability** and **UV resistance**. MACmark 9000 PRO Series embodies this breakthrough technology.

- **9800PRO:** Cadmium-free vinyl, durable and flexible for conformability over difficult surfaces including **rivets** and enhanced **high gloss** finish.
- **9700PRO:** High-performance **translucent** vinyl which provides ultimate color consistency for back lit applications.

Intermediate Marking Films

8000PRO Series — *Impact Graphics*

From customized environments to promotional signage, 8000PRO Series provides **trouble-free** processing on computerized cutters at fast speeds and weeds quickly even on small letters and fine lines.

- **8900PRO:** Wide range of **colors in matte and gloss finishes** to complement any environment with a **removable** adhesive suitable for most smooth painted walls.
- **8300PRO:** Highest gloss finish of any intermediate vinyl. A **work horse** computer aided signage vinyl with a permanent adhesive. Bold attention getting colors.

Window Films Marking Films — *Make a Statement*

Windows that make a fashion statement. MACmark Window Graphics are **decorative** and **functional**.

- **Glass Décor 700 Series:** Translucent vinyls with “dusted” and “frosted” finishes for **etched** or **sandblasted look**. Provides window privacy accents.
- **MACcrystal™ 8400 Series:** **Transparent color** vinyl for use in **illuminated signs** and for window decoration.

Specialty Films

Tuning Films Marking Films — *Ahead of the Curve*

Raise the bar on **hottest customization trend** for vehicles and electronics with Mactac® TuningFilms. Designed for custom color change and custom accent finishes.

Specialty Marking Films — *Shining Stars*

Whether your graphics need to **sparkle, glow** or create **special effects**, MACmark Specialty Series of products has you covered.

- **MAClite™ 5700 Series:** Microscopic glass beads with metalized back create a **reflective** surface that is visible **night and day**.
- **6400 Series:** Films that offer **pearly**, anodized high gloss finish with a five year durability.
- **6700 Series:** High-gloss film for **high-visual** impact. Excellent for flat to slightly curved surfaces.
- **6800 Series:** Short-term film in neon **fluorescent** colors for indoor or outdoor applications where **high-impact** color is needed.
- **Mactac wallCHALKER™:** A true black slightly textured vinyl that transforms almost any flat surface, including walls, into a **chalkboard**. Cover a wall in a fraction of the time it takes with messy paint. The moderately aggressive removable adhesive is strong enough to support large size applications yet remove cleanly.

Open Image WarrantySM for Mactac® Media and Laminates:

You make the choice of printer and ink that are best for your business and Mactac will be the partner that stands behind you. Simply provide us with your system and if we have not already tested the combination, we'll run a comprehensive series of tests to insure the system works and then warrant your application. If we find the components are not compatible we'll let you know that, too, and make alternative recommendations. It's that simple!

We stand behind you. And, we work with the most popular printer and ink suppliers to ensure product compatibility and durability.
