Floors

Overlaminates

Overlaminates keep floor graphics looking sharp – from initial application to removal. Offering superior protection against scuffing, abrasion, moisture and UV light, Colorgard® floor overlaminate products protect and seal images from environmental elements, foot traffic and more. These overlaminates are specially engineered for use with pressure-sensitive floor graphic films and meet or exceed various public safety requirements and industry standards for high traction.

Open Image Warranty^{SM} for Mactac® Media and Laminates:
You make the choice of printer and ink that are best for your business and Mactac will be the partner that stands behind you. Simply provide us with your system and if we have not already tested the combination, we'll run a comprehensive series of tests to ensure the system works and then warrant your application. If we find the components are not compatible we'll let you know that, too, and make alternative recommendations. It's that simple!

We stand behind you. And, we work with the most popular printer and ink suppliers to ensure product compatibility and durability.
