Differential tape series that blends the foam bonding performance of FBR899 (unwind side) with the high performance of XT (liner side) for bonding to smooth surfaces and low surface energy materials.

Macbond® Foam Bonding Tapes

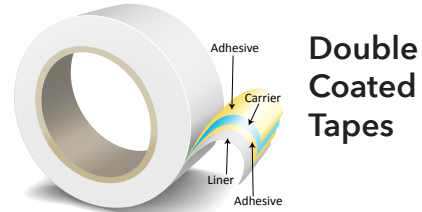

Engineered Tapes & Laminates

Features

- Differential tape series that blends the foam bonding performance of FBR899 with the high shear performance of XT Rubber.
- 0.5 mil PET Carrier for dimensional stability
- 60# SCK and 80# SCK Liner options available

Benefits

- FBR899 is an versatile adhesive, bonding well to open and closed cell foams, textiles and textured surfaces.
- XT Rubber is a high performance rubber adhesive, with exceptional shear strength. Bonds well to metals, plastics and low surface energy substrates.
- Available in 54" and 60" web widths
- Easy to laminate and die cut
