APPLICATIONS

If your end use is...	*We recommend you test...*		
PACKAGING **Permanent** For adhesion to paper, paperboard, corrugated, most fiber drums and plastics. Wide variety of choices depending on the desired aesthetics and end use application. Application temperatures above 35°F (-2°C). Caution: Never expose laminated foils to moisture, the foil will separate. Many of our Colorcodes match popular Wausau Paper Astrobright color papers - see page 6.	**Uncoated/Matte** Novelty® Lyric® Blinding White	**Gloss** Cinema® Matinee®	**Special Look** Balcony Byzantine Playhouse Theatre Colorcodes Brown Kraft
POINT-OF-PURCHASE (POP), MAGAZINE INSERTS, SIGNAGE **Permanent, Removable or Repositionable** For adhesion to a variety of surfaces. Adhesive choice dependent on end use application. Repositionable Prestige® in White or Matte Clear are recommended for signage & POP applied to windows and other glass surfaces.	**White Paper** Cinema Matinee Novelty Lyric Blinding White	**Color Paper** Colorcodes Fluorescent Brown Kraft	**Specialty** Debut Prestige Premiere
NAME & CONVENTION BADGE Special Badge adhesive is specifically designed for up to 24 hour use on fabric. Non-staining and removes cleanly. **CAUTION:** Not recommended for fur, leather and suede, sequins, corduroy or silk. Not recommended for long-term removability applications such as socks and tights bands or size labels.			
SHIPPING/ADDRESS LABELS **Permanent** For adhesion to paper, paperboard, corrugated, most fiber drums and plastics. Application temperatures above 35°F (-2°C). Uncoated facestocks recommended for common pens and markers for no-smear performance.	**White Paper** Novelty	**Color Paper** Colorcodes Brown Kraft	
COVER-UP (BLOCKOUT) LABELS **Permanent** For adhesion to paper, paperboard, corrugated, most fiber drums and plastics. Exhibits short-term removability on some plastics. Application temperatures above 25°F (-4°C).	**Uncoated Paper** Novelty Opaque	**Gloss Paper** Cinema Opaque Matinee Opaque	**Color Paper** Brown Kraft (97% Opacity)
WARNING, INVENTORY & SAFETY LABELS **Permanent** For longer term adhesion to corrugated, most fiber drums or plastics, or for application temperature about 35°F(-2°C).	**Color Paper** Colorcodes Brown Kraft Fluorescents		

Length of Outdoor Exposure*	Up to 6-12 weeks	Up to 6 months	Up to 12 months	Up to 18 months
DRUM LABELS, BUMPER STICKERS and LABELS **Outdoor conditions and/or demanding conditions.** Removable adhesive for short-term — always test for compatibility. Length of time outdoors may affect removability. Permanent adhesive for longer lasting applications. Repositionable adhesive may be reapplied to another surface up to 6 months.		Prestige Premiere	Debut Teslin	Spotlite II Charade I & II

* Outdoor durability dependent on a number of variable conditions including climate. Results could vary. Please test.

STARLINER

Pressure-Sensitive

ADHESIVE GUIDE

PERMANENT ACRYLIC (PA)
Good quick stick to most surfaces. UV resistant, non-yellowing. Super clear, good for clear films. Excellent ultimate adhesion to most surfaces. Suggested for most plastics, paperboard and corrugated surfaces.

SPECIAL REMOVABLE / REPOSITIONABLE (SP REM)
Special Removable / Repositionable applies to wide variety of surfaces such as wood, painted drywall, wall coverings and plastic. Can be cleanly removed and reapplied to many clean surfaces a number of times. Best applied at 45°F (7°C). Maximum service range -65°F (-54°C) to 200°F (82°C) after 24 hour dwell time on substrate before exposure. Always test thoroughly under intended conditions. Intended for up to 6 months. Ambient conditions and integrity of substrate can effect adhesion, repositionability and removability.

REMOVABLE (REM)
Removable is a UV resistant acrylic emulsion with good adhesion to and clean removal from most common surfaces. Always test thoroughly under intended conditions. Ambient conditions and integrity of substrate can effect adhesion and removability.

Mactac® STARLINER® Adhesive Chart

Adhesive	Type	Minimum Application Temperature	Service Range
Permanent	Acrylic	35° F (-2°C)	-65°F to 200°F (-54°C to 93°C)
Removable	Acrylic	35° F (-2°C)	-65°F to 180°F (-54°C to 82°C)
Repositionable (SP Rem)	Acrylic	45° F (7°C)	-65°F to 150°F (-54°C to 66°C)
Permanent Opaque	Acrylic	35° F (-2°C)	-65°F to 200°F (-54°C to 93°C)

Pressure-Sensitive "NO-NO's"

NO Removable adhesive for Convention Badge applications - it could stain

NO Applications on waxed surfaces without testing first.

NO Outdoor applications for acetate. Sunlight yellows acetate. Use polyester or vinyl instead.

NO Rigid paper stocks such as Preview® Tag, Lyric Matte Litho or Cinema® Cast Coated Gloss on small diameter or extremely rough surfaces. Test more conformable products such as Matinee® Semi-Gloss, Polypropylene, Teslin® or Debut® Vinyl. Conformable labels allow more adhesive contact to the substrate.

NO Paper stocks for large, removable labels. Test Medley 60# Latex or Prestige repositionable vinyls.

ALWAY TEST. Contact your Mactac STARLINER Merchant for samples. If you need the name of a local merchant, call us at 800-321-8834 for the name and number of the STARLINER merchant in your area.

Vinyl with Repositionable Adhesive - Prestige

Nominal 80# Liner | No Scores | No Back Print

Description	Stock No.	Face Stock	Sheet Size	Adhesive	Sheets/ CTN	Carton Wt
4.0-mil top coated matte white and matte clear vinyl. A versatile alternative to static that conforms better to irregular surfaces. Easier to print and handle than static cling. Ideal for P.O.P. and signage. Both indoors and outdoors up to six months. Oxidizing inks recommended. Not recommended as name badge and should not be applied to surfaces coated with wax, oils or other contaminants which my deaden the adhesive.	GX5005	Matte Clear	27" x 20"	Repositionable	500	110#
	GX5006	White	27" x 20"	Repositionable	500	110#

Films & Specialty

Teslin® - 7.0-mil Teslin SP

Nominal 80# Liner |1-1/4" Scores | No Back Print

Description	Stock No.	Face Stock	Sheet Size	Adhesive	Sheets/CTN	Carton Wt
Synthetic stock with the high quality printability of fine paper and strength of films. Outdoor applications up to one year. Varnish the sheet to prevent discoloration. Ideal for tags, address/ shipping labels, menus, maps, manuals, posters, P.O.P.'s novelties and banners. Standard inks can be used on one and two color jobs. Oxidizing inks are recommended for three or more colors.	SL2321-1	White	8 1/2" x 11"	Permanent	1,000	64#
	SL2322	White	17" x 22"	Permanent	500	64#
	SL2323	White	26" x 20"	Permanent	500	88#

Teslin for Indigo printing is available on page 10.

Polypropylene - White Synthetic Paper - Premiere

Nominal 80# Liner |1-1/4" Scores | No Back Print

A 4.0-mil white clay-coated, tear-resistant polypropylene film that looks and prints like fine offset paper. Dries faster than most synthetics. It is 100% waterproof. Semi conformable. Suitable for limited outdoor applications up to six months. Oxidizing offset inks recommended.	SL4018	White	18" x 24"	Permanent	500	64#

Polyester - Clear - Charade

Polycoated 90# Liner | No Scores | No Back Print

Optically-clear, top coated, glossy polyester. Window, door labels and emblems. Windshields and display case merchandising. Good outdoor use up to 18 months. Oxidizing offset inks recommended.	GI0159	1.0-mil	27" x 20"	Permanent	100	21#
	GI0259	2.0-mil	27" x 20"	Permanent	100	28#

Polyester - Silver - Spotlite II

Polycoated 90# Liner | No Scores | No Back Print

Bright silver, top coated polyester. Nameplates, decals, promotional labels. Top coated for ink receptivity. Oxidizing offset inks recommended. May be used outdoors for up to 18 months	EI9508	Bright Silver	27" x 20"	Permanent	100	28#

Acetate - Vignette

Polycoated 90# Liner | No Scores | No Back Print

Glossy clear 2.0-mil Acetate. Popular for wafer seals. Also merchandising, display case promotions, two-way signs, for transparent indoor applications. Oxidizing offset inks recommended. Not intended for outdoor use.	GI0029	Clear	26" x 20"	Permanent	100	21#

STARLINER

Indigo Presses

INDIGO

STARLINER® pressure-sensitive sheet products optimized and certified for HP Indigo sheet-fed presses. Ideal for short runs, personalized and variable information. Perfect for retail signage, P.O.P., announcements, exhibit displays and prime product identification. Most popular products are available in 500 sheet cartons.

Digital Presses Including Blinding White2

TONER FUSION

Popular face stocks optimized for toner fusion digital presses. Can be pre-printed with offset inks compatible with toner fusion printing. These products perform on today's dry toner digital presses such as Xerox iGen series, Kodak NexPress series and Canon imagePress VP as well a other high speed production sized digital printers. Always test. Follow the digital manufacturer's guidelines for printing pressure-sensitive stock. Digital is ideal for short runs and variable information. Perfect for retail signage, POP, announcements, exhibit displays and prime and variable labels. Paper products can also be used on many direct image (DI) presses.

MAC2DAY - *Custom Sheet Sizes in as little as 2 days*

MAC2DAY

MAC2DAY℠ is the quick and efficient way to get skid packed pressure-sensitive sheets shipped to your printer in as little as 2 business days. Your printer saves the time and expense of opening and disposing of multiple cartons. And MAC2DAY is the first program to offer custom sized sheets specifically for toner fusion and Indigo presses.

- Most Popular Paper Faces including High-Gloss, Semi-Gloss, Matte Litho, Uncoated Litho and 8pt. Coated Tag
- Permanent and Removable Adhesives
- Nominal 80# Liner - Scored and Unscored Available
- Virtually any size sheet you need.
- Skid packed on standard sized skids.
- Sheets for commercial offset and for Indigo and production digital Presses.
- Ships from our Columbus, IN facility in as little as 2 business days.
- 1.5-30 MMSI ship in 2 business days, larger quantities may take additional time.

IMPORTANT MAC2DAY™ Order Guidelines

Order Cut Off Time	Please fax or email your orders to Customer Service at 888-321-8834 / DistributorOrders@Mactac.com by 4:00pm Eastern Time for qualified orders to ship in 2 business days.
Order Size	Orders from 1.5 to 30 MMSI on standard skids sized orders on standard skids in 2 business days. Larger quantities or special skid sizes may take additional time. Please contact our inside sales team for more information.
Sheet Sizes	Available in virtually any sheet size needed. Width minimum is 16" and maximum is 52". Sheet length minimum is 18" and maximum is 40". Cut size 8-1/2" x 11" are also available.
Calculating MMSI	MMSI per sheet is ((W" x L") x .000001) Total MMSI is MMSI of single sheet multiplied by total number of sheets example: 17" x 24" 3 mmsi = 7,350 sheets 30 mmsi = 73,500 sheets example: 26" x 34" 3 mmsi = 3,400 sheets 30 mmsi = 34,000 sheets

Custom Constructions

Besides the readily available products offered in our **MAC2DAY** program, we can also manufacture custom constructions of pressure-sensitive sheets to meet your specific needs. We can offer custom face stocks, adhesives and even custom scores on liners as well as custom back printing. Contact us at 866-622-8223 to discuss you specific applications.

Quantities: Over/Under Shipments Custom orders using standard stock materials will be considered complete if the quantity is +/- 10% of quantity ordered. Custom orders requiring special purchase material will be considered complete if the quantity shipped is +/- 20% quantity ordered.

Minimum Order Size: Dependent on specific product construction.

Sheet Tolerances: Contact Mactac Inside Sales at 866-622-8223 for guidelines.

Custom Scores: A minimum distances of 1-1/4" between scores is required. Allow for a moderate plus or minus tolerance from edge of sheet to first score + 1/32" score tolerance.

Guarantee: All products are 100% guaranteed for quality workmanship and materials. All products are sold with the understanding that the user will pre-test to determine printability and suitability for intended end use

Call Mactac® Inside Sales 866-622-8223 for more information.

WARRANTY

Mactac products are warranted to be free of defects in material and workmanship for a period of (24) twenty-four months from the date of delivery to the Purchaser. THE FOREGOING WARRANTY IS MADE SOLELY TO THE FIRST PURCHASER FROM Mactac (the "Purchaser"). AND IS EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES, EXPRESS, IMPLIED BY LAW OR OTHERWISE.

It is expressly agreed and understood that the liability or obligation of Mactac to Purchaser under the foregoing warranty or otherwise shall be limited to, at the option of Mactac, the replacement of, or the issuance of a credit in the amount of the replacement value of, any products which, in its opinion, is proved to be defective in material or workmanship at the date the products are delivered. Furthermore, in order for Purchaser to be eligible to receive such replacement or credit, Purchaser must notify Mactac of the alleged defective product immediately after such defect is discovered or ought to have been discovered, and Purchaser must return the defective products to Mactac within thirty (30) days after the request by Mactac for their return for inspection.

THE WARRANTY PROVIDED HEREIN DOES NOT COVER ANY ECONOMIC LOSS SUSTAINED BY PURCHASER IF NOT ACCOMPANIED BY DAMAGE TO PROPERTY OR PERSONAL INJURY OR ANY INCONVENIENCE, TRANSPORTATION DAMAGE, MISUSE, ABUSE, ACCIDENT OR SIMILAR INCIDENT.

THERE ARE NO WARRANTIES, EXPRESS OR IMPLIED, OR MERCHANTABILITY, FITNESS OR OTHERWISE, WHICH EXTEND BEYOND THE FACE HEREOF.

As stated above, the liability of Mactac for defective products shall not exceed the replacement value of the products.
