**IMAGin**® has the broadest range of pressure-sensitive media for all your application needs. From high-performance films with high-gloss finishes, bright, white, highly conformable facestocks and aggressive acrylic adhesives to cost-effective intermediate products and sustainable media, IMAGin offers superior printability and quality. And, with an expanding portfolio of products that feature **bubble-free** adhesive technology – variety, ease of application and versatility are at your fingertips.

## High-Performance

Four product lines: **B-free® Pro**, **B-free GRUV™** and **B-free Window Films**

- Multiple Applications - vehicles, marine, fleet, windows, long-term outdoor signage and more
- Proprietary air-egress adhesive for fast, smooth, bubble-free application
- Ultra-smooth, ultra-white print surface for solvent, eco-solvent, latex and UV-curable ink jet printing

## Intermediate

Four product lines: **IMAGin JT5800**, **B-free GRUV**, **IMAGin Verde™** and **IMAGin PrintVinyl**

- Multiple Applications – P.O.P displays, medium-term indoor and outdoor signage, decals, vehicle windows, building windows, environmentally friendly media and more
- Exceptional print quality for the price you want
- Compatible with solvent, eco-solvent, latex and UV-curable ink jet printers
- Verde™ VM3209R optically-clear media, greener choices for a changing world.

## Specialty

Eight products for specialty applications (all products solvent and eco-solvent printable):

- **StreetRap™** – short-term application to unsealed, indoor and outdoor pedestrian concrete, asphalt or cinder block surfaces
- **wallNOODLE®** – short-term flat surface wall graphic application; easy to apply, reposition and remove for posters, cutouts and P.O.P.
- **ROODLE™** – short-term flat surface wall graphic application; easy to apply, reposition and remove, for removable tiled graphics
- **RoughRAP®** – highly-conformable, easy application to brick and textured wall surfaces for a paint-like appearance
- **IMAGin digiTrans™** – designed for short-term outdoor mobile advertising requiring a block-out adhesive; CBS approved for Kings, Queens and Tails
- **Engineering Grade Reflective** – flexible reflective film providing wide-angle reflectivity for excellent night and day visibility; good for P.O.P, marine and fleet applications
- **WindowVIEW® Perforated Window Films** – vinyl film with black reverse side for one-way visibility – available in 50% perforated with 1.5 mm hole diameter, 40% perforated with 1.6 mm hole diameter and 30% with 1.4 mm hole diameter

### Open-Image Warranty<sup>SM</sup> for Mactac® Media and Laminates:

You make the choice of printer and ink that are best for your business and Mactac will be the partner that stands behind you. Simply provide us with your system and if we have not already tested the combination, we'll run a comprehensive series of tests to insure the system works and then warrant your application. If we find the components are not compatible we'll let you know that, too, and make alternative recommendations. It's that simple!

We stand behind you. And, we work with the most popular printer and ink suppliers to ensure product compatibility and durability.
