

PERMACOLOR®

FloorGRIP™ Overlaminates

2019 | Product

September | Floor Overlamine

The Industry's First ANSI/NFSI Certified Graphic Laminate

Design for superior traction and exceptional durability.

PERMACOLOR® FloorGRIP™ PF6600

Designed to offer excellent protection of printed graphic images, PERMACOLOR FloorGRIP PF6600 is a heavily textured laminate that offers superior pedestrian **traction** and exceptional **durability**. Ideal for both indoor and outdoor settings, FloorGRIP was developed for medium- to long-term indoor or short-term outdoor floor graphic applications.

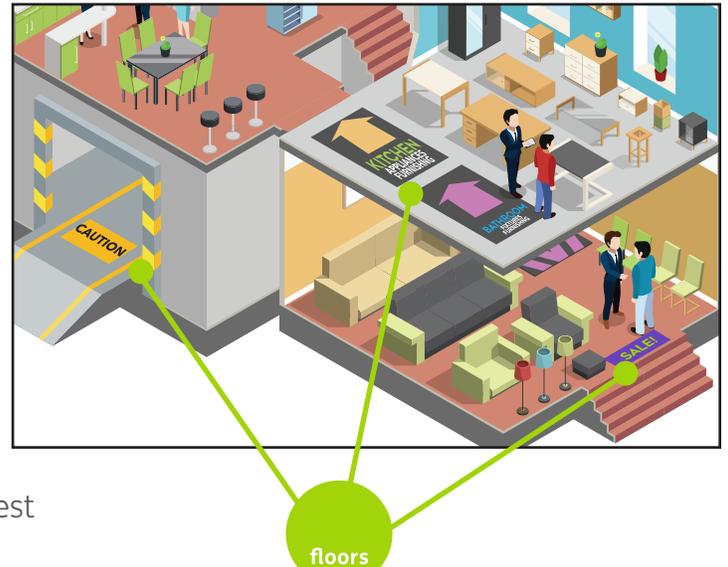

Additional features include:

- 6.0 mil clear textured matte PVC
- High-tack adhesive compatible with all digital ink jet and UV inks
- High traction matte finish that is also designed to help eliminate glare
- Protection from abrasion and moisture and reduced color fade caused by UV light
- Can be paired with StreetRAP™, REBEL®, IMAGin® 5800 Series or any other floor media

With very few industry floor graphics materials certified to date, Mactac®, the leading pressure-sensitive overlaminate

provider, has diligently taken action to manufacture and test PERMACOLOR FloorGRIP products specifically to the **new ANSI/NFSI B101.3 standard**.

In addition to meeting the new U.S. high traction specifications for floor safety, PERMACOLOR FloorGRIP PF6600 also meets German National Standard test methods commonly used in Europe, such as DIN 51130. While different, the ANSI/NFSI B101.3 and German National Standard testing platforms are known to correlate well with one another.

Stock No.	Roll Size	Finish	Adhesive
PF6654W54L150	54" x 150'	6.0 mil Textured Matte Clear	Permanent Clear
