September | ColorGard® LUV Digital PS Overlaminates

The perfect laminate for all digitally printed graphics including UV inkjet!

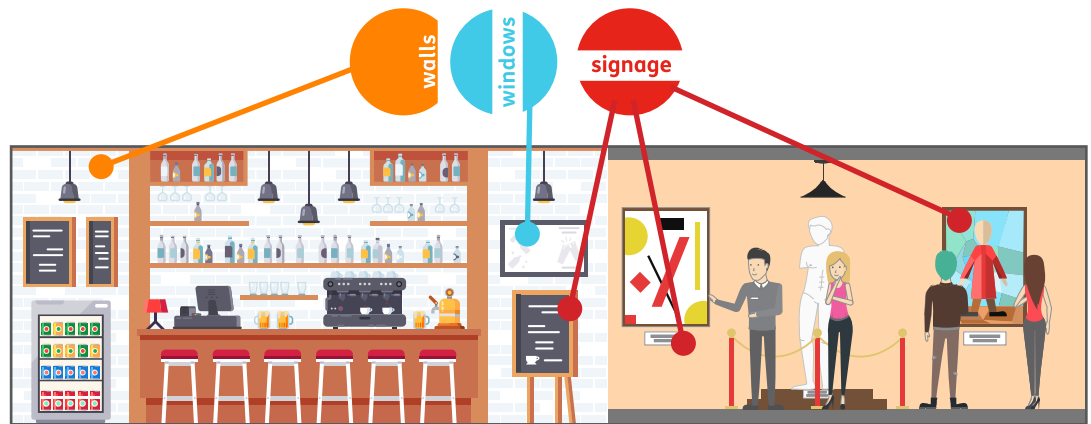

Overlaminates for protection against UV light, moisture and abrasion

What is ColorGard® LUV

ColorGard LUV is a 5-7 year overlaminating film. LUV is designed to enhance and protect all your digital and photographic images, including UV inkjet, from UV light degradation, moisture, dirt and abrasion.

Applications include:

- General purpose lamination of digital images
- Murals and exhibits
- Event graphics
- Retail posters and displays

Open-Image WarrantySM. Peace of Mind. Guaranteed.

PERMACOLOR delivers quality, consistency, and a wide variety of unique choices to fit every graphics application – and budget. All of this comes without costly color shifts, poor finish selection, adhesion failures, UV fade or unnecessary waste.

Open Image Warranty for Mactac Media and Laminates:

You make the choice of printer and ink that are best for your business and Mactac will be the partner that stands behind you. Simply provide us with your system and if we have already tested the combination you have chosen, you're done. If not, give us a sample of your combination, we'll run a comprehensive series of tests to insure the system works and then warrant your application. If we find the components are not compatible we'll let you know that too and make an alternate recommendation. It's that simple!

We stand behind you. We work with the most popular printer and ink suppliers to ensure product compatibility and durability.

For more information about ColorGard LUV or other Mactac products, partnerships or graphic solutions, call a graphics representative at 866.622.8223 or e-mail Mactac.Americas@mactac.com or visit mactac.com/graphics.
