# RELATCH®

**Peel and Reseal Labeling Products  
for Demanding Household, Personal Care  
and Food Packaging Applications**

## Roll Label

PSA-coated papers and films in roll-to-roll form. Extensive product options, available customization, varying roll lengths and widths, and customer friendly services, like our Mactac Precise<sup>SM</sup> Program, which offers next-day shipping on a precise amount of material needed for small runs and limited applications.

Mactac's ReLATCH® portfolio, features our innovative peel and reseal adhesives designed to help package designers meet consumers' needs for the convenience reclosure technology provides.

This portfolio of film facestocks and specially engineered adhesives is ideal for demanding household, personal care and food packaging applications where packaging is opened and closed multiple times, creating a more economical, user-friendly open-close packaging experience.

## Benefits of Mactac's ReLatch:

- Allows consumers to reseal their package after opening
- Allows product to be repeatedly opened and closed
- Keeps product fresh and in the original packaging
- Additional space for product branding and promotions

Our ReLatch® adhesives were formulated specifically for convenient, easy-to-use open-close cycling. The unique properties of the adhesive create a high-performance resealable/reclosable label that offers excellent functionality. Users simply pull back the label to reveal the contents of the container, then, reseal it to preserve the product inside for later use. In food packaging applications, for example, our new peel and reseal labels help ensure food stays fresher, longer.

The ReLatch portfolio offers several high-performance removable adhesives with differing seal strengths for various peel / reseal applications, including wet wipes and refrigerated foods. Adhesives feature smooth, quiet peel, excellent clarity, non-water whitening, resistance to moisture, solvents, oils, and FDA approvals for direct and indirect food contact compliance.

### ReLatch Product Offering

Part Number	Description	Adhesive	Liner	Web Width	Precise
PTW8291-2	2.3 mil White Topcoated Polypropylene	ReLatch MP820	1.2 mil PET	60"	P5
