

Non-Woven Tapes

Mactac[®] Medical offers a complete line of nonwoven tape products for Electromedical, wound care and bandage applications.

Our product offering includes 2.4oz and 1.3oz basis weight spunlaced polyester, elastic fabric and both acrylic and synthetic-rubber medical grade adhesives. The Spunlace nonwoven products offer breathability and higher MVTR for wound care applications, and the elastic fabric product is excellent for use in bandage applications. All products have been independently tested following ISO-10993 Guidelines.

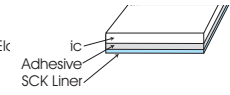

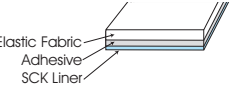

Applications

- EKG/ECG Single Use Electrodes
- Wound Care Dressings
- Bandage
- TENS Electrodes
- IV Securement

Features & Benefits

- Wear Times Up to Five Days
- Comfortable and Conformable

Liner
40# SCK = Bleached Super-Calendared Kraft
60# PCK = Poly-Coated Kraft

Mactac® Medical Products have been a trusted source of medical adhesive systems for more than 25 years. Our skin-friendly medical adhesives are a key component that drives the design, production, and performance of a wide variety of medical devices including : disposable electrodes, surgical drapes, wound dressings and ostomy devices. Our expertise in adhesive coating and our state-of-the-art technology expands functionality, inspires new product designs, and delivers speed to solutions — cost effectively. We offer a wide range of adhesive coated foams, films and non-wovens to fit a variety of medical device assembly applications.

- **State-of-the-art adhesive coating facilities**
- **Dedicated research and development**
- **Dedicated sales and technical support**
- **Customizable solutions**

Mactac supplies the Medical Grade (PSA) pressure-sensitive materials in rolls. These rolls are converted into unique shapes using die cutting machinery. These pieces provide and attachment to the skin for long-term wear capability and clean removability. The following are examples of a few of the applications you will find using Mactac's Medical Grade PSAs.

Electrodes

Diagnostic

Wound Dressing

Surgical Drapes
