*Durable Labelstocks featuring industry proven PAT1 and automotive approved P0066 aggressive acrylic adhesives for a converter-friendly balance of high initial tack and low edge bleed.*

*PAT1 is a versatile, industry proven, low ooze permanent acrylic adhesive used in a wide variety of general durable applications and conditions with excellent mandrel hold, extreme chemical and solvent resistance and ultimate adhesion to various high and low energy substrates.*

*P0066 is a low ooze acrylic adhesive with higher tack and ultimate adhesion designed for difficult to adhere to low energy textured surfaces.*

# INDUSTRIAL

## Low Ooze, High Adhesion Durable Labelstocks

### Features

- Good adhesion to high and low energy surfaces
- Cleaner on-press and thermal transfer print performance
- Reduced risk of label pick-off
- Suitable for prolonged outdoor use
- Adhesive has heat durability up to 302°F
- UL969 Recognized
- Very good chemical resistance, heat resistance and UV resistance

### Potential Applications

- Durable goods
- Electronics
- Appliances
- Automotive
- Medical
