

INDUSTRIAL Low Ooze, High Adhesion Durable Labelstocks

Roll Label

PSA-coated papers and films in roll-to-roll form. Extensive product options, available customization, varying roll lengths and widths, and customer friendly services, like our Mactac PreciseSM Program, which offers next-day shipping on a precise amount of material needed for small runs and limited applications.

www.mactac.com/rolllabel

Durable Labelstocks featuring industry proven PAT1 and automotive approved P0066 aggressive acrylic adhesives for a converter-friendly balance of high initial tack and low edge bleed.

PAT1 is a versatile, industry proven, low ooze permanent acrylic adhesive used in a wide variety of general durable applications and conditions with excellent mandrel hold, extreme chemical and solvent resistance and ultimate adhesion to various high and low energy substrates.

P0066 is a low ooze acrylic adhesive with higher tack and ultimate adhesion designed for difficult to adhere to low energy textured surfaces.

INDUSTRIAL

Low Ooze, High Adhesion Durable Labelstocks

Features

- Good adhesion to high and low energy surfaces
- Cleaner on-press and thermal transfer print performance
- Reduced risk of label pick-off
- Suitable for prolonged outdoor use
- Adhesive has heat durability up to 302°F
- UL969 Recognized
- Very good chemical resistance, heat resistance and UV resistance

Potential Applications

- Durable goods
- Electronics
- Appliances
- Automotive
- Medical
