

The Association of
Plastic Recyclers

Meets Critical Guidance

Widely Accepted Recyclable Plastic Container Labels

Roll Label

PSA-coated papers and films in roll-to-roll form. Extensive product options, available customization, varying roll lengths and widths, and customer friendly services, like our Mactac PreciseSM Program, which offers a precise amount of material needed for small runs and limited applications.

www.mactac.com/rolllabel

Labels & adhesives can significantly impact the recyclability of plastics. Mactac[®] has been granted Critical Guidance Recognition (CGR) from the Association of Plastic Recyclers (APR), exceeding the association's strictest criteria for product packaging recyclability for PET and HDPE plastics.

Watch the video

Widely Accepted Recyclable Plastic Container Labels

The Association of Plastic Recyclers

Meets Critical Guidance

PET Plastic - Labels need to float off PET containers during the washing process for recycling - leaving no adhesive residue behind

HDPE Plastic - Labels need to remain in place during recycling without impacting the physical properties of the recycled HDPE pellets for pigmented applications

Common labeling applications include:

- Bottles
- Clamshells
- Health & Beauty Products
- Food & Beverage Packaging
- Household Goods

Part Number	Description - Facestock	Adhesive	Liner	Precise	APR CGR
PJ0101	2.6 mil White Topcoated Pearlescent BOPP	PUREfloat®	2.4 mil SCK	■	PET Containers
